## Best Practice-1 2021-2022

**Title of the practice:** Alumni Ambassador

**Objectives of the practice:** The aim of the Practice is to inculcate enthusiasm among the present students to pursue in different career-spheres.

**The Context:** The major goal of the college is to uplift women's academic growth in the neighbouring area. To continue the task it is also important to ensure continuation of women's inclusion in workforce. Geographical and social barrier have always remained the main constraint to fulfil the purpose not only restricted to women but both the genders. To address the gap college initiated connecting present students with their seniors who have taken up jobs and pursued higher studies.

**The Practice:** The practice involves DOWNWARD FILTRATION THEORY where alumni of the college work as agent to encourage present students. The direction could be towards job-market or pursuing higher studies. The faculties of the college kept track of alumni via social network and personal connection throughout the year. In each academic session, alumni were contacted by the college and SENIOR-JUNIOR WORKSHOP was conducted bi-yearly.

**Theme 1 :- Fly and Shine:-** A workshop on job opportunities, self-preparation method and interview skills were shared by the already-placed students.

**Theme 2:- Dare to Dream: -** A workshop on pursuing higher education like Post-Graduation, MPhil, PhD and related examinations like NET, SET were explained by the qualified students.

**Evidence of success:** The programme successfully generated curiosity and enthusiasm among present students. The fulfilling experience was evidenced in the feedback and suggestions submitted by the attended students. The students felt inspired to continue their education and job oriented preparation and also to become an ambassador in future for their juniors.

**Problems encountered and Resources Required:** A discussion on lack of availability of books, computers, resources and technical guides for higher education were made the college authority aware of the requirements. To ensure a wholesome approach to not only provide information but also act positively towards gathering resources to help our students is part of the future resolution.

## Best Practice-2 2021-2022

**Title of the practice:** Aesthetic Consciousness: Elevation and Expansion

**Objectives of the practice:** The main objective of this practice is to beautify the campus using internal resources.

**The Context:** Students' creativity is one of the under-tapped resources in text-book based academic curriculum. Extra-curricular talents can help to build team spirit, strong bonds towards the campus and create positive attitude about college attendance. Using data from various cultural activities it was decided to engage the students in college beautification with paintings, posters, handcrafts etc.

**The Practice:** Student volunteer enthusiastically participated in the project. A team of faculties and students brainstormed to visualize best version of the college campus in their artistic horizon. Few paintings and posters were mounted on various rooms and walls of the college building. It helped to brighten the campus from monotonous nature. Handcrafted items are also used and displayed in offices and departments. The corridors and the pathways are decorated with multi-coloured paintings like 'alpana' and 'rangoli'. Sometimes, art and graffiti are also used to cover up tear and damaged areas.

**Evidence of success:** Displayed posters help to generate multi-layered thinking among students and visitors. Decorations like 'Alpana' and 'Rangoli' in the college reverberated traditional ethos and sentiment. This initiative helped to strengthen the teacher- student bond beyond the classrooms and create a community feel. The overall effort helped to increase aesthetic consciousness among the stakeholders.

**Problems encountered and Resources Required:** The strict adherence to the class schedule in each semester becomes a hurdle to manage group activities. The students and faculties would be benefitted if there is enough stationary and innovative tools are available at their disposal from regulatory bodies like UGC.
